Outline of Exchange Programs at Kyoto University

There are two types of exchange programs at Kyoto University.

Website for exchange programs:
http://www.kyoto-u.ac.jp/en/education/international/admissions/program/tanki.htm

1. Kyoto University International Education Program (KUINEP)

Kyoto University International Education Program (KUINEP) provides undergraduate level lectures in English to our partner university students as well as Kyoto University students. The program is open only to undergraduate students. (Their status at Kyoto University is “Special Auditor”.) Each semester, KUINEP students are required to register 6 KUINEP classes in principle (two credits per class), each of which comprises two hours of lecture per week and continue for 15 weeks. The students also can take one regular class from Faculty courses with the lecturer’s permission or Liberal Arts and General Education Courses instead of/ additional to their 6th KUINEP class. They may even take more than one regular class as long as they take at least 5 KUINEP classes each semester.

2. Kyoto University General Exchange Program

This is the program in which students take ordinary courses taught in Japanese. Students in undergraduate faculties and in graduate schools are affiliated. (Their status at Kyoto University is “Special Auditor”.) For graduate students, there is another option to deepen their own research under the instruction by academic supervisors without taking any courses lectured in classrooms. Japanese proficiency is not required if supervisor can guide the student by any other language. (Their status at Kyoto University is “Special Research Student”) As for undergraduate level of this program, all students are to take regular classes in their faculty which are given in Japanese. Therefore undergraduate students in this Program must have sufficient Japanese language proficiency.

~Japanese Language Study~

In both exchange programs, it is also possible to take Japanese language courses, offered by The International Center, with tuition exemption. For “Special Auditor”, evaluation of those Japanese language classes will be included in the official transcript and one official credit will be conferred for each course for students completed.
