

## **FACULTY OF APPLIED SCIENCE & ENGINEERING**

Exchange students admitted to U of T Engineering may take courses from any of the Faculty's programs:

- Chemical Engineering
- Civil Engineering
- Computer Engineering
- Electrical Engineering
- Industrial Engineering
- Materials Engineering
- Mechanical Engineering
- Mineral Engineering
- Engineering Science

### **COMPUTER SCIENCE VS. COMPUTER ENGINEERING**

At U of T, computer science courses and computer engineering courses are taught in separate faculties. Exchange students interested in studying computer science and/or computer engineering at the University of Toronto need to decide which of the following faculties best suits their interests, based on course access:

#### **Option 1: Faculty of Applied Science & Engineering**

- Access to engineering courses in the departments and division listed above provided space and pre-requisite availability.
- Possible limited access to Arts & Science courses:
  - Students may request to enrol in up to two (2) Faculty of Arts & Science courses per term; however, many Arts & Science courses, including chemistry, physics, statistics and computer science courses, are restricted to engineering exchange students. A list of other restricted Arts & Science courses is made available in June each year.
  - Engineering students do not receive enrolment priority for Arts & Science courses. Arts & Science courses will be full by the time engineering exchange students can enrol.
  - Because of the aforementioned restrictions, engineering exchange students should expect to take the majority of their courses within U of T Engineering.
- Students are required to enrol in a minimum of four courses and maximum of five courses per term.
- Courses are only offered on the St. George campus.

## Option 2: Faculty of Arts & Science

- Access to the Faculty of Arts & Science's [Computer Science \(CSC\) courses](#), as well as many other courses in Arts & Science (some restrictions apply).
- No access to U of T Engineering courses, including courses in the Department of Electrical & Computer Engineering.
- Required to enrol in a minimum of three courses. A maximum of five courses may be taken per term.
- Choose from one of the three campuses: [St. George](#), [Mississauga](#) and [Scarborough](#).

## RESTRICTIONS

### U of T Engineering Courses

The following departments/courses have very competitive enrolment and/or small class sizes. As such, they are difficult for exchange students to get into. While students may request enrolment in the following departments/courses, they may need to choose alternates due to availability:

- Applied Science & Engineering (APS)
- Joint minor (JRE)
- Final-year design (XXX498H) and thesis (XXX499Y1) courses

### Arts & Science Courses

Engineering exchange students may take up to two Arts & Science courses per term, but do not receive priority enrollment. Some courses may not be made available to engineering students. The list of restricted courses is available in June each year.

## FACULTY of ARTS & SCIENCE (INCLUDING ROTMAN COMMERCE)

At U of T, the Faculty of Arts & Science incorporates all arts, humanities, social sciences, and sciences (including computer science) programs/departments. U of T Arts & Science is one of the most comprehensive and diverse academic divisions in North America and the heart of one of the world's leading universities.

Exchange students admitted to U of T Arts & Science are able to take courses from multiple departments within the faculty – over 4,000 courses in a wide range of disciplines. There is no restriction on taking courses from within only one discipline/department.

## ST. GEORGE CAMPUS

U of T's downtown St. George Campus blends historical architecture and inviting green spaces as a backdrop to a truly remarkable community.

Set in the centre of Toronto, one of the world's most dynamic and diverse cities, it is a place where students, staff and faculty engage with a vibrant academic life and countless co-curricular activities.

Just beyond the campus are the many events, neighbourhoods and industries that Toronto has to offer. From Scotiabank Nuit Blanche, an annual art festival that runs from dusk until dawn, to sports games at one of the Varsity Centre's high-performance facilities, this location is intrinsically linked with the city's renowned cultural offerings to create a rich and unique experience for everyone.

### RESTRICTIONS

While we do our best to keep you informed of any exchange student course restrictions, this list is not necessarily comprehensive, as course offerings and availability vary from year to year. We cannot guarantee enrollment in any course. It is important to maintain an expectation of flexibility in your course load.

### Closed Courses

The following courses are NOT available to exchange students:

- English Language Learning (ELL)
- Many 100-level courses hosted by our colleges (e.g., VIC1XX, NEW1XX, INI1XX, UNI1XX, WDW1XX, SMC1XX, TRN1XX)
- Many 100-level courses that are open to Year 1 FAS students only (e.g., ANT19X, AST19X, CHM19X, CSC19X, EAS19X, ENG19X, ESS19X, FAH19X, GGR19X, HIS19X, MAT19X, PHL19X, PHY19X, POL19X, PSY19X, SOC19X, STA19X)
- Academic Bridging Program through Woodsworth College
- Biochemistry (BCH): All courses except BCH210 and BCH311 (BCH210 and BCH311 have limited spaces for exchange students)
- Economics (ECO): All 100-level courses
- Human Biology (HMB): All 400-level courses, and HMB322
- Molecular Genetics and Microbiology (MGY) laboratory courses
- All Restricted (R1) Sociology (SOC) courses are not available: SOC201, SOC202, SOC204, SOC251, SOC252, SOC254, SOC319-354, and all 400-level SOC courses
- Statistics (STA): STA130, STA490

### Restricted Enrollment

The following departments/courses have very competitive enrollment and/or small class sizes and are therefore difficult for exchange students to get into at the St. George campus. However, many of these programs/courses are also available at our Mississauga (UTM) and Scarborough (UTSC) campuses. If you wish to take a full course-load in **Computer Science**, **Sociology**, or **Statistics**, we strongly recommend you consider one of our other two campuses.

Please do not expect to take a full course-load in these areas at the St. George campus:

- Computer Science (CSC)
  - CSC300 and 400-level courses tend to be over-subscribed and not all exchange students get in
- Drama (DRM)
- Political Science (POL) 400-level courses
  - Many 400-level POL courses have very small class sizes (10-13 people), so we cannot enroll many exchange students into them
- English (ENG) 400-level courses
- Human Biology (HMB)
- Peace, Conflict and Justice (PCJ)
- Sociology (SOC)
- Statistics (STA)

## **Rotman Commerce Restrictions**

### **Eligibility**

If you are interested in taking Rotman Commerce (RSM) courses, you must be pursuing a business degree (e.g., B.B.A. or B. Comm.) or a similar degree at your home institution. You must be nominated and admitted to Arts & Science – Rotman Commerce (undergraduate, St. George) in order to take RSM courses. Students admitted to Rotman Commerce at the St. George campus are able to take other Arts & Science courses in addition to RSM courses.

### **Course Restrictions**

- Due to the restrictions (“R” or “R1”) on RSM courses, exchange students will not be placed on waiting lists for RSM courses. You may request to be enrolled in waitlisted courses, but we can only enroll you if space becomes available.
- Many RSM courses have limited spaces available for exchange students. The department will conduct a draw to determine which students can be enrolled in the courses with limited space availability.

## U OF T MISSISSAUGA: ARTS, SCIENCE & COMMERCE

The [University of Toronto Mississauga campus](#) is situated on 225 acres of protected greenbelt along the Credit River, 33 kilometres west of the university's St. George campus in downtown Toronto. UTM has many of the same [Arts & Science departments](#) as the downtown St. George campus, as well as unique courses in [Forensic Science](#) and [Commerce/Management](#) (open to business students who are not eligible for Rotman Commerce at our downtown campus).

Exchange students admitted to undergraduate studies at UTM are able to take courses from multiple departments within the faculty – there is no restriction on taking courses from within only one discipline/department.

### RESTRICTIONS

All second year Commerce (MGT) and Management (MGM) courses are not available for registration, but selected upper year (3<sup>rd</sup> + 4<sup>th</sup> year) courses may have limited spaces available for exchange students. Commerce and Management courses are generally reserved for UTM Commerce and Management students and spaces in these courses are not guaranteed for incoming exchange students. You may request to be enrolled in any upper year Commerce and Management course; enrollment will be based on availability, and you may be placed on a waitlist for courses.

## U OF T SCARBOROUGH: ARTS, SCIENCE & COMMERCE

The University of Toronto Scarborough campus is a 300-acre campus in the [Highland Creek Valley](#), one of Toronto's most spectacular natural settings, situated in the east-end of Toronto.

Experiential education is the hallmark of the UTSC campus. Students get a head start on their futures through hands-on research, community engagement and a vibrant campus life.

UTSC is home to the new Aquatics Centre and Field House, which represents Canada's largest investment in amateur sport infrastructure, opened in 2015 for the Pan Am/Parapan Am Games.

UTSC offers standard Humanities, Social Sciences, Science and Management programs (English literature, Statistics, Economics, etc.), but also some interesting and unique programs listed below.

- [Arts Management](#),
- [Global Asia Studies](#),
- [Population Health](#),
- [International Development Studies](#),
- [Migration & Ethnic Diversity](#),
- [Food Studies](#)
- [Mental Health Studies](#),
- [International Business](#)
- [City Studies](#).

Exchange students admitted to undergraduate studies UTSC are able to take courses from multiple departments within the faculty – there is no restriction on taking courses from within only one discipline/department. There are, however, department-specific restrictions that exchange students should be aware of that are listed below.

### **RESTRICTIONS**

The following courses/programs of study are **not available to exchange students**:

Scarborough (UTSC) Campus

- Co-op (work placement) programs
- Applied Microbiology (IMC)
- Environmental Science and Technology (STE)
- Journalism (JOU)
- New Media Studies (NME)
- Paramedicine (PMD)

For the list of courses with limited spaces, please visit the [UTSC Registrar's Office website](#).
