Courses

Course offer
The Faculty of Economics and Business Administration has a wide variety of courses in English. All details can be found in our programme catalogue: [https://www.ugent.be/eb/en/exchange-students/prospect-incoming-exchange-students.htm#Exchangeprogramme](https://www.ugent.be/eb/en/exchange-students/prospect-incoming-exchange-students.htm#Exchangeprogramme)

Note: the exchange programme is composed out of all the English taught subjects at our faculty, in 5 different study fields in 2 different levels. Course schedules from the different study fields are not in accordance to each other!

Students who speak Dutch as mother tongue or who hold a certificate of level B2 in Dutch can also select courses from the Dutch programme, if they meet the course requirements.

Students can also take courses taught at other faculties (max. 40% of the total workload in the LA) if the faculty concerned agrees.

Workload
The Faculty of Economics and Business Administration only considers exchange applications with a minimum workload of 24 ECTS/semester. **Important: Incoming exchange students are required to have a balanced workload between the exchange curriculum and the workload of the degree components that would normally be completed at the sending institution (and which will be ‘replaced’ after successful completing the exchange programme). This means that the workload of educational components at the sending institution (to be replaced during mobility) should also amount minimum 24 ECTS (= table B of the LA)! Nominated students should have at least 24 ECTS available (thesis not included) in their degree programme at the start of the exchange period, for credit transfer to ‘replace’ degree components during mobility.**

Course requirements
Students need to check if they meet the initial competences, the course requirements: [http://www.ugent.be/eb/en/exchange-students/course-requirements.htm](http://www.ugent.be/eb/en/exchange-students/course-requirements.htm)

Course registration
The formal course registration needs to be completed during the first two weeks of the academic semester. Students will receive all information about registration during the Welcome Days, just before the beginning of the semester.

Taking master courses for bachelor students
Bachelor students might be allowed to take a master course if they can proof they meet the initial competences and the course requirements of the specific course.

Exams
The evaluation can be based on permanent and/or periodic evaluation. In case the final evaluation is based on several partial evaluations, only the final total grade will be mentioned on the transcript of records. Students are automatically registered for exams and re-sit exams. There’s no extra subscription or payment required.
**Grading**

Exams are graded on a 20 point scale. A student with a score of at least 10/20 obtains a credit for that course, with the number of ECTS-points associated with the course. Every student is entitled to two examination opportunities per course per academic year.
