5. DEFINITIONS AND BASIC PRINCIPLES

Faculty Member: In this procedure document, the term faculty member shall cover all lecturers and instructors.

The final examination with excuse options for students studying at Koç University as part of an exchange program and for Koç University students to participate in an exchange program are listed below. The faculty member in charge of the course shall make the decision concerning which of these options shall be implemented.

1- Early Final Examination: For this option, the final examination of the relevant course(s) shall be taken at Koç University at an earlier date than established in the Koç University academic calendar. If an Early Final Examination is to be administered, the faculty member in charge of the course may request a project or assignment to replace the classes that will be missed, in addition to the Early Final Examination.

2- Project or Assignment: For this option, the project or assignment must be submitted by the deadline set by the faculty member in charge of the course, who shall also determine the scope and content of the project or assignment.

3- Final Examinations Abroad: In collaboration with the OIP, the faculty member in charge of

the course can request that the student take the final exam on the same date as the one administered in Turkey, supervised by an observer at KU's partner university. If this option is preferred, the OIP shall contact the partner university abroad and request that a venue and a proctor be allocated for the examination, and the OIP shall receive exam questions from the faculty member in charge of the course via e-mail on the day of the exam or the day before at the earliest, and forward these to the partner university official assigned to the exam. Immediately after the exam, the answer sheets shall be sent by OIP via e-mail to the faculty member in charge of the course. Upon request, the originals of the exam papers may also be requested by the OIP for dispatch by express courier.

- 4- Online Final Examination:** If the faculty member in charge of the course deems it appropriate, the student shall take the examination administered by the faculty member online, on the date of the final exam or on a different date. For international students who participate in exchange programs completely online from outside the borders of Turkey, the decision to administer the mid-term and final exams online by the faculty member on the exam date, or on a different date if the faculty member approves, shall be in effect. The list of students participating in exchange programs online shall be forwarded by the OIP to the Registrar and the relevant College or Graduate School at the beginning of the semester.
